SUMMARY

Computer Science student at Shorouk Academy with a strong focus on Frontend Development and React.js. Experienced in building responsive web applications and interactive user interfaces using HTML5, CSS3, JavaScript, and React.js. Familiar with React Hooks, Context API, React Router, REST API integration, and modern frontend development tools. Passionate about writing clean, maintainable code and creating user-friendly web experiences. Seeking a Frontend Developer or React Developer Internship to apply technical skills and gain practical industry experience

EDUCATION

Bachelor's Degree in Computer Science 2024 – 2028
Shorouk Academy

SKILLS

Programming Languages JavaScript (ES6+) Java SQL Python (Basic) Frontend Development HTML5 CSS3 Bootstrap React.js Responsive Web Design TypeScript (Fundamentals) React.js React Hooks (useState, useEffect, useRef, useReducer) Context API React Router State Management Reusable Components Tools & Technologies Git & GitHub Visual Studio Code Vite REST APIs Fetch API Axios Computer Science Fundamentals Object-Oriented Programming (OOP) Data Structures & Algorithms Database Fundamentals Problem Solving

CERTIFICATES

Digital Egypt Pioneers Initiative (DEPI)
Front-End Development – React Track
Training topics:
- HTML5 & CSS3
- JavaScript
- TypeScript
- Bootstrap
- React.js
- Git & GitHub
- UX/UI Principles
- Software Testing Fundamental

AI Ambassadors Initiative
Prompt Engineering Training
- Prompt Engineering Fundamentals.
- Effective Prompt Design.
- Working with AI Tools.

ITIDA – Information Technology Industry Development Agency
Freelancing Training
- Freelancing Fundamentals.
- Building Professional Freelance Profiles.
- Freelance Platforms.
- Client Communication.
- Presenting Freelance Services.

PROJECTS

Project 1: Flowstic – Business Management & Analytics Platform 10/2026 – 10/2026
- Participating in a team project focused on business management and analytics. - Working on a platform concept that combines project management, task tracking, and team collaboration. - Contributing to the planning of dashboard, projects, tasks, team, and settings modules. Technologies: Frontend Development, Team Collaboration, UI Planning.

Project 2: Shopping Cart Application 09/2026 – 10/2026
Developed a responsive shopping cart application using React.js. - Implemented global state management using Context API. - Used React Hooks to manage application state and component behavior. - Integrated Local Storage to persist cart data between sessions. - Built reusable components to improve code organization.technologies: React.js, JavaScript, Context API, React Hooks, Bootstrap

Project 3: Weather Application 07/2026 – 07/2026
- Developed a responsive weather application using React.js. - Integrated a Weather API to retrieve and display current weather information. - Used environment variables to manage API configuration. - Built a user-friendly interface with reusable React components. Technologies: React.js, JavaScript, REST API, Vite, Bootstrap

Project 3: Books CRUD Application 07/2026 – 07/2026
- Developed a React-based application to manage book records. - Implemented Create, Read, Update, and Delete (CRUD) operations. - Integrated JSON Server as a backend API. - Used React Router for navigation between application pages. - Used Axios for API requests. Technologies: React.js, JavaScript, Axios, React Router, JSON Server
